

Quick Payment Button Integration Guide

Overview:

Etelegate provides payment processing for a variety of internet businesses. Our merchants sell members access to material online or to products which they may purchase. This guide will walk you through the steps required to integrate your website withour Payment Page.

Prerequisites:

- You have registered an account with Etelegate.
- You have an ftp client.
- You have FTP or Control Panel access to your website.

Pricing Setup

First, Select Tools

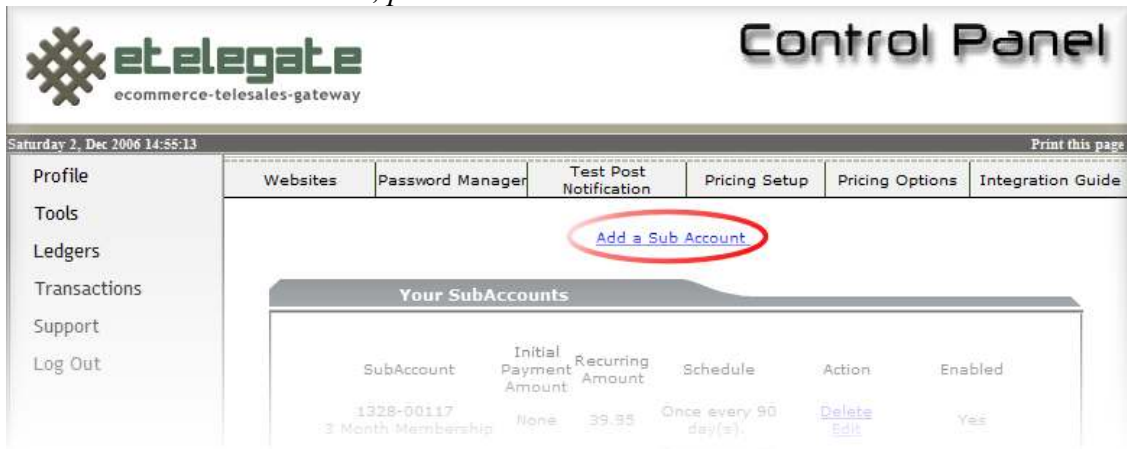

The screenshot shows the Etelegate Control Panel. The header includes the Etelegate logo and the text "ecommerce-telesales-gateway". The title "Control Panel" is on the right. Below the header, a navigation bar contains links: Profile, Websites, Password Manager, Test Post Notification, Pricing Setup, Pricing Options, and Integration Guide. A left sidebar contains links: Profile, Tools (circled in red), Ledgers, Transactions, Support, and Log Out. The main content area is empty. The footer shows the date "Saturday 2, Dec 2006 14:52:15" and a "Print this page" link.

Then, Select Pricing Setup

The screenshot shows the Etelegate Control Panel. The header includes the Etelegate logo and the text "ecommerce-telesales-gateway". The title "Control Panel" is on the right. Below the header, a navigation bar contains links: Profile, Websites, Password Manager, Test Post Notification, Pricing Setup (circled in red), Pricing Options, and Integration Guide. A left sidebar contains links: Profile, Tools, Ledgers, Transactions, Support, and Log Out. The main content area is empty. The footer shows the date "Saturday 2, Dec 2006 14:52:15" and a "Print this page" link.

To Create a new Price Point, please select 'Add a Sub Account'

The screenshot shows the Etelegate Control Panel. The header includes the Etelegate logo and the text "ecommerce-telesales-gateway". The title "Control Panel" is on the right. Below the header, a navigation bar contains links: Profile, Websites, Password Manager, Test Post Notification, Pricing Setup, Pricing Options, and Integration Guide. Pricing Setup (cont.)

To Create a Price Point, please enter the following information:

The screenshot shows a web form titled "PricePoint Info - New Price Point". The form is divided into several sections, each with a numbered annotation (1-10) on the left side:

- 1** **PricePoint Information**: A section with a label "Describe This Price Point:" followed by a large text input field.
- 2** **Enable Trial**: A section with a label "Enable Trial" and a checked checkbox. Below it, a label "Enable Trial Period:" is followed by a text input field and a note: "Enter the Trial Amount to be billed and the Trial Period duration for which the customer will have access to the site or product until they are rebilled again."
- 3** *** Initial \$ Amount:**: A text input field with a note below it: "All Amounts must be greater than \$1.00 and less than \$200."
- 4** **Trial Period:**: A dropdown menu currently showing "1 Month".
- 5** **Recurring Billing Information**: A section with a label "Enable Recurring Billing:" and a checked checkbox. Below it, a label "Enter the Recurring Billing Schedule by which the customer will be billed. The customer will be charged the Recurring Amount by this schedule."
- 6** *** Recuring \$ Amount:**: A text input field with a note below it: "All Amounts must be greater than \$1.00 and less than \$200."
- 7** **Recurring Period:**: A dropdown menu currently showing "1 Month".
- 8** **Price Point Enabled:**: A checkbox that is currently unchecked.
- 9** **Subscriptions Used:**: A text input field currently showing "No Activity".
- 10** **Submit**: A button at the bottom right of the form.

1. A **Description** of this price point, for example "30 Day subscription to Somesite.com". If you are using Optional Group Access, then this will be the name of the group.
2. If you would like this price point to have a **Trial Period** or non recurring billing, please check this box.
3. Enter the **Initial Amount** (in USD) that you would like your customer to be charged for their first transaction.
4. The **Trial Period** is the length of time that between the initial transaction and either rebilling or expiration.
5. If you would like this price point to be a **Recurring** please check this box.
6. Enter the **Recurring Amount** (in USD) that you would like your customer to be charged for transaction after the first transaction.
7. The **Recurring Period** is the length of time between recurring transactions.

Pricing Setup (cont.)

8. **Price Point Enabled** will allow you to disable the price point later. Ignore it for now.
9. **Subscriptions Used** will show you how many active subscriptions you have with this Price Point.
10. Once you are satisfied with your input please click **Submit**. Your price point will be created and you will be shown the price you have just created. If you would like to create another price point you must exit this page and navigate back.

Generate Purchase Buttons (cont.)

Once you are finished, Scroll down to the 'Generate HTML/Purchase Buttons' section

The screenshot shows a web form titled "Generate HTML/Purchase Buttons". It contains three dropdown menus at the top, followed by two large text areas for HTML code, and a "Generate" button at the bottom. Red numbers 1 through 6 are placed to the left of the form elements to indicate the steps:
